TOTAL:		\$ _____	

*Chief Whitecap School (CWS) is a public school with a focus on the Dakota language and culture. The school is made possible by the partnership between Whitecap Dakota First Nation and Saskatoon Public Schools, and runs from Kindergarten to grade 8. The school houses a daycare and pre-kindergarten with an Functional Life Skills program (FLS). CWS will be entering into second year of instructing students, so it is still in a growing state of establishing a community within the community of Stonebridge. On the tour, participants will have the opportunity to tour the school, have nutrition break, hear from the leaders involved in establishing the school and learn of the newly developed Dakota Curriculum.
